

Java Enterprise & Microservices Internship

You are in the second half or at the end of your studies with a focus on IT and are looking for an internship for the summer months to already gain experience in the world of software development? You want to experience first-hand what it means to implement projects and ramp up from development to production? Then this is the right place for you.

In a period of 2 - 3 months, you have the opportunity to expand your horizons and independently manage your own project from start to production.

YOUR TASKS:

- Development of a microservices in the Java EE environment with Spring or Quarkus.
- Communication with databases via Hibernate and Co.
- Integration of the microservices into our test environment using Docker, Kubernetes and Cloud Native technologies.
- Implement security functions according to the zero-trust principle
- Integration of a front-end interface for the application of your own microservices

YOUR PROFILE:

- Ongoing studies (Bachelor or Master) in the field of Software Engineering or equivalent
- First experience with Java, Spring Boot, JavaScript, SQL
- Very good analytical skills and a high willingness to learn
- Excellent German and English skills

OUR OFFER

- Exciting and autonomous tasks in a growing company, embedded as part of the C-QUADRAT Investment Group
- Flat hierarchies and a dynamic working environment with highly motivated colleagues enable professional work and individual growth
- We offer you a monthly gross starting salary of € 1,500 with readiness for extension depending on qualifications and agreement.

If you are interested in this exciting challenge with a high degree of independence, we would be pleased to receive your detailed application to [Benedikt Hofmann bh@quanticfinancial.com](mailto:Benedikt.Hofmann@quanticfinancial.com)

About QUANTIC Financial Solutions

Quantic consists of advisors and researchers for the next generation of asset management, risk analysis and forecasting models and cutting-edge products for financial professionals and companies. QUANTIC Financial Solutions was founded in 2011, became part of the C-Quadrat Investment Group in 2018 and is a licensed investment company regulated by the Austrian Financial Market Authority. Starting from a strongly risk-oriented background, we have developed a balance sheet forecasting algorithm with forecasts of profit and loss

statements of every single company worldwide with an average certainty of more than 90%, based on data from over 42 million companies.

Our models are used by major banks and financial institutions and have been audited by European regulators and 3 of the big 4 audit firms. We apply our quantitative models to the capital markets to develop fundamentally oriented quantitative investment strategies.
